- Android Studio / React Native (Expo)
- IoT Integration (Hardware & System Integration)
- Debugging & Troubleshooting

ABOUT ME

I am a Senior Software Engineer with over 6 years of experience in developing web and mobile applications, mainly using Laravel and JavaScript/TypeScript. I have experience delivering ERP modules, building real-time dashboards, and implementing CI/CD pipelines. I enjoy turning complex requirements into simple, user-friendly systems and am seeking remote or hybrid opportunities where I can contribute as both a hands-on engineer and a technical lead.

WORK EXPERIENCE

- Senior Software Engineer Executive** 2019 - PRESENT
Polyware Sdn Bhd
 - Planned and managed IT projects with clear objectives, timelines, and deliverables
 - Developed a web-based IERP system using Laravel and MySQL
 - Managed GitHub repositories, including access control and pull request reviews
 - Deployed and maintained Laravel applications on Plesk servers
 - Created and managed MySQL databases and stored procedures (Live & Testing)
 - Maintained both Live and Testing environments on Plesk
 - Managed project tracking system, including tasks and team assignments
 - Developed RESTful APIs and documentation for e-shop integration
 - Resolved system bugs and support tickets
 - Handled multiple IERP projects across different branches
 - Conducted weekly meetings to gather and refine requirements
 - Organized project launches, including presentations and setup
 - Integrated IoT devices (e.g., fingerprint scanners, weighing scales) with IERP
 - Enhanced system features and improved existing functionalities
